

APPLIED POLYMER SYSTEMS, INC.

POND PRODUCTS

Dirty water decreases the amount of oxygen in the water causing stress to fish and other aquatic life.

APS Pond Products works like a magnet, binding together suspended inanimate particles thereby cleaning the dirty water and reducing aquatic life toxicity.

Pond Logs and Mini Pond Logs are used in medium and large size ponds.

Pond Logs are packaged 4 per box, 144 (36 boxes)/skid

Mini Pond Logs are packaged 10 per box, 360 (36 boxes)/skid

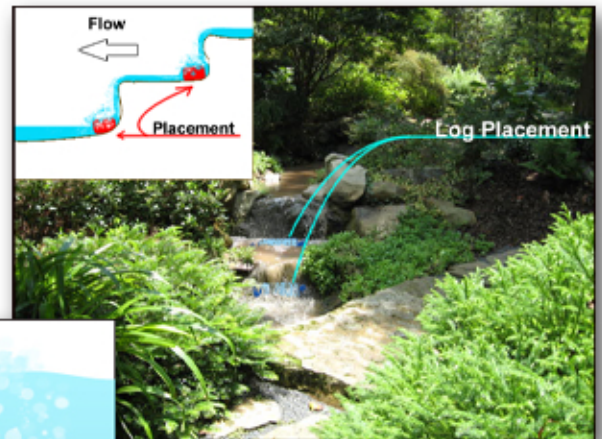

Product	Dimensions	Wt.	Volume Treated	SKU
Pond Log	12" x 8" x 4"	~9 lbs	325,000-500,000 gallons	7-93573-20903-0
Mini Pond Log	5" x 2" x 3"	~2 lbs	20,000-100,000 gallons	7-93573-20904-7

Before Treatment

After Treatment

APS Pond Products can be installed above an aerator, under a floating fountain on the steps of a waterfall or with any circulation mechanism. The water must be moving over and around the Pond Products for them to work.

All APS Pond Products are safe for fish; no need to monitor pH.

The APS Pond Products are a semi-solid block of environmentally safe, non-toxic anionic polymer formulation to clean dirty water and reduce aquatic life toxicity.
